

# How to use BeLive.TV

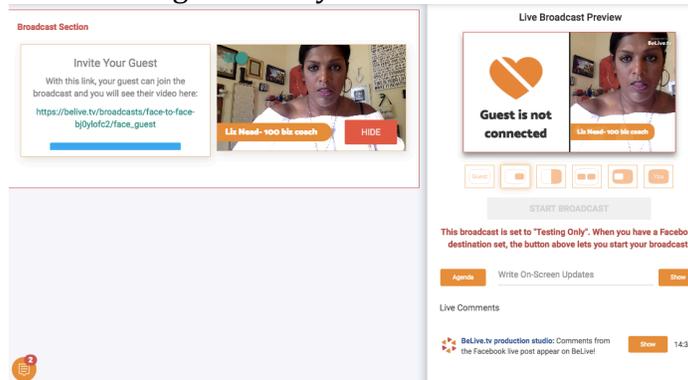

1. Create a believe.tv log in.
2. Create a “face-to-face” broadcast and test only so you can play around first.

The screenshot shows a form titled "Create Face to Face Broadcast" with a close button (x). The form contains the following elements:

- A text input field labeled "Text to Share with the Broadcast".
- A text input field labeled "Your Email".
- A checkbox labeled "Create a scheduled Facebook Live broadcast".
- A section titled "Choose where you want to post this live broadcast" with a dropdown menu currently set to "Testing Only - Do not post".
- A section titled "Receive broadcast details on Messenger" with a checked checkbox labeled "Send to Messenger".
- A list of contacts, with "Liz Nead" selected and the text "Not you?" next to it.
- A large orange button at the bottom labeled "Create Broadcast".

3. Click “send to messenger” so you have the details for your broadcast.
4. You will be taken to a production studio. On the left side is your working area, and on the right side is your live view.

The screenshot shows the production studio interface, split into two main sections:

- Broadcast Section (Left):** Contains an "Invite Your Guest" box with a link: [https://belive.tv/broadcasts/face-to-face-bj0ylofc2/face\\_guest](https://belive.tv/broadcasts/face-to-face-bj0ylofc2/face_guest). Below it is a video preview of a woman with a "Liz Nead - 100 live coach" subtitle and a "HIDE" button.
- Live Broadcast Preview (Right):** Shows a "Guest is not connected" message with a video preview of the same woman. Below this are control buttons for "Camera", "Microphone", "Screen", "Audio", and "Video". A "START BROADCAST" button is present. A note states: "This broadcast is set to 'Testing Only'. When you have a Facebook destination set, the button above lets you start your broadcast." There is also a "Write On-Screen Updates" section with "Apply" and "Show" buttons. At the bottom, there is a "Live Comments" section showing a comment from "BeLive.tv production studio" with a "Show" button and a timestamp of "14:39".

5. Click connect camera so your camera is set up.
6. Type in your title, and click show- it will show up in the live view. Click hide to hide the subtitle.

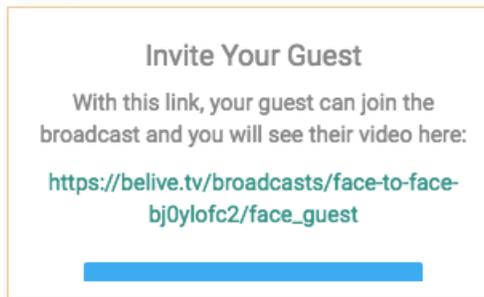

7. You can also type in what is “up next”

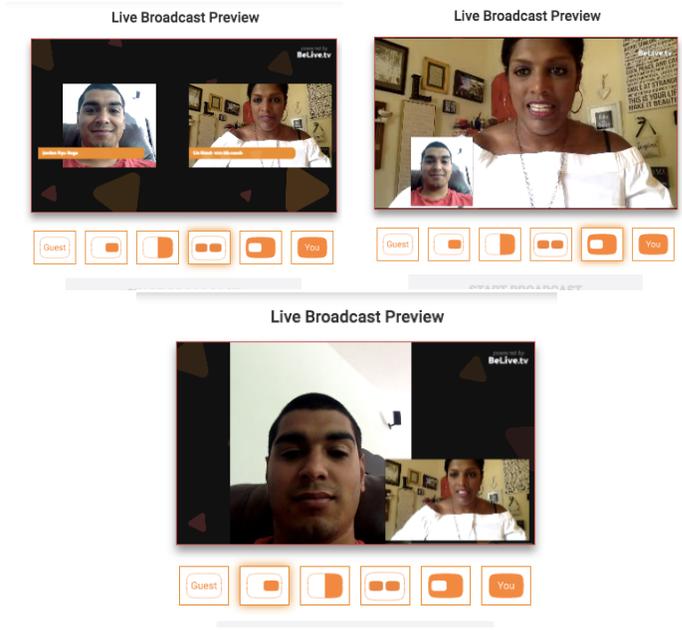

Live Comments

8. If you have a person to interview, send them the link. They will have to download an app and then accept your invitation to be a guest. It should not take long but be ready to walk them through the steps. You might want to create a log-in guide.

9. Once your interviewee is in, you will have several views to work with. Choose your favorite! You can also switch it up when you are live. Make sure to have their title ready to go.

10. Go live! And have fun. You will see comments from your stream – an easy way to interact!
